Simpli Human

# Your Journey To Emotional Wellbeing Starts Here.

The community-led emotional wellbeing platform built for the youth, by the youth.

iOS & Android | AI-Powered | Community-Led | 9,200+ Users

**Seed Round — March 2026**

THE CRISIS

# A Generation In Silent Struggle

**46%**
of Gen Z diagnosed with an emotional wellbeing condition
*Harmony Healthcare IT, 2025*

**61%**
of teens with depression receive zero professional support
*Annie E. Casey Foundation, 2024*

**11 yrs**
average delay between symptom onset and first treatment
*NAMI, 2024*

**250K+**
projected behavioral health practitioner deficit
*HRSA Workforce Brief, 2025*

## The Access Gap

122 million+ people live in professional shortage areas. 6 in 10 psychologists don't accept new patients. Average wait: 48 days to 3+ months. The system is broken.

*HRSA 2025; Healing Psychiatry FL 2026*

## The Screen Paradox

93% of teens use social media averaging 4+ hours daily. Those spending 3+ hours have double the risk of anxiety and depression. The device causing harm must become the device that heals.

*Pew Research 2025; CDC 2025; WHO 2024*

## The Stigma Wall

Young people don't want clinical therapy labels. They want safe, private, peer-understood spaces where expressing emotions is normalized — not medicalized.

Sources: CDC 2023, NAMI 2024, HRSA 2025, Pew Research 2025, WHO 2024

WHY NOW

# The Perfect Storm for Emotional Wellbeing Tech

### Post-Pandemic Awakening

Emotional wellbeing concerns among youth have **quadrupled since 2019**. 42% of Gen Z is now actively in therapy — a 22% jump since 2022. Awareness has never been higher.

*CDC 2023; Harmony Healthcare IT 2025*

### AI Breakthrough Moment

24% of adults already use AI for emotional support. AI-powered emotional wellbeing solutions are the **fastest-growing healthcare AI segment at 34% CAGR**. The technology is finally ready.

*Mordor Intelligence 2025*

### Proven Category, Massive Exits

**Calm reached $2B valuation** with 4M+ paid subscribers and $596M revenue. **Headspace merged at $3B** and serves 2.8M subscribers. **Spring Health hit $3.3B** in its Series E. Investors are pouring billions into this space — but **no one has built the all-in-one youth wellbeing ecosystem** yet. That's the gap SimpliHuman fills.

*Business of Apps 2025; Behavioral Health Business 2024; Galen Growth 2025*

### Global Emotional Wellbeing App Market

Growing at 14.6-18% CAGR *(Grand View Research & MarketsandMarkets, 2025)*

**$7.5B** 2024 → **$22.7B** 2030

THE SOLUTION

# SimpliHuman: Emotional Wellbeing, Simplified.

We're building the first community-led emotional wellbeing ecosystem designed specifically for young people aged 17-28 — where expressing, reflecting, interacting, and connecting come together in one safe space.

- 🎯 **Not clinical.** We normalize emotional expression, not diagnose.
- 🤝 **Community-first.** Built by the youth, shaped by user voices.
- 🧠 **AI-powered.** Personalized support with 4 distinct AI personalities.
- 🌍 **Global reach.** Active users across 30+ countries, growing organically.

## Four Pillars of Wellbeing

💬
**Expressing**
Mood tracking & journaling

🧘
**Reflecting**
Mindfulness & exercises

👥
**Interacting**
Echo: anonymous community

💡
**Connecting**
AI chat & professional support

# Features That Resonate

## Mood Tracking

Highest Engagement — 33%

Our anchor feature. Users log emotions with context tags (Work, Social, Sleep, Partner, Exercise), creating rich longitudinal data. Mood Tracker 2.0 adds mini-journals and micro-reflection prompts for deeper self-awareness.

## Release

Unique — No Competitor Has This

A breakthrough therapeutic mechanic. Write your thought, then choose to **Burn it, Bury it, or Drown it**. The thought is permanently deleted — a powerful cathartic ritual that transforms emotional processing into a tangible action.

## AI Companion Chat

4 AI Personalities

Four distinct AI companions — **Sage** (calm & reflective), **Blaze** (energetic & motivating), **Leo** (directive coach), **Grace** (warm & comforting) — matched to user mood and preference for personalized support.

## Echo

Anonymous Community

Share thoughts anonymously. Your Echo reaches other users who can respond with support. It's the emotional equivalent of PostSecret meets Reddit's r/offmychest — creating genuine peer connection without identity exposure.

## Journaling

Guided & Free-form

Structured and free-form journaling with AI-powered prompts that adapt to the user's current emotional state. Premium features include photo attachments, voice journals with transcription, and exportable emotional insights.

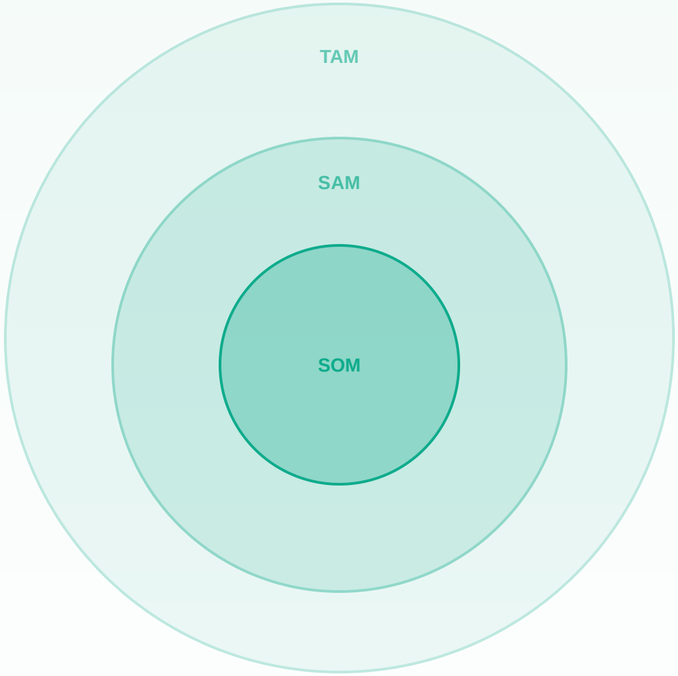
## Exercises & Mindfulness

Structured Interventions

Breathing exercises, guided meditations, and cognitive reframing tools. One-tap actions after AI conversations (e.g., "Try 1-minute breathing") turn emotional insights into immediate action.

# A $50B+ Market Opportunity

The emotional wellbeing space sits at the intersection of three mega-trends: youth wellness crisis, AI transformation, and digital-first care delivery.



**TAM** **$49.7B**

Gen Z Emotional Wellbeing Market (2030)

Global youth wellness spending + digital therapeutics + AI wellbeing solutions *(Mordor Intelligence, 2025)*

**SAM** **$7.5B**

Emotional Wellbeing Apps (English-speaking markets, 17-28 age group)

North America + UK + MENA English-speaking D2C app market *(Grand View Research, 2025)*

**SOM** **$120M**

Achievable within 5 years (Year 5 target)

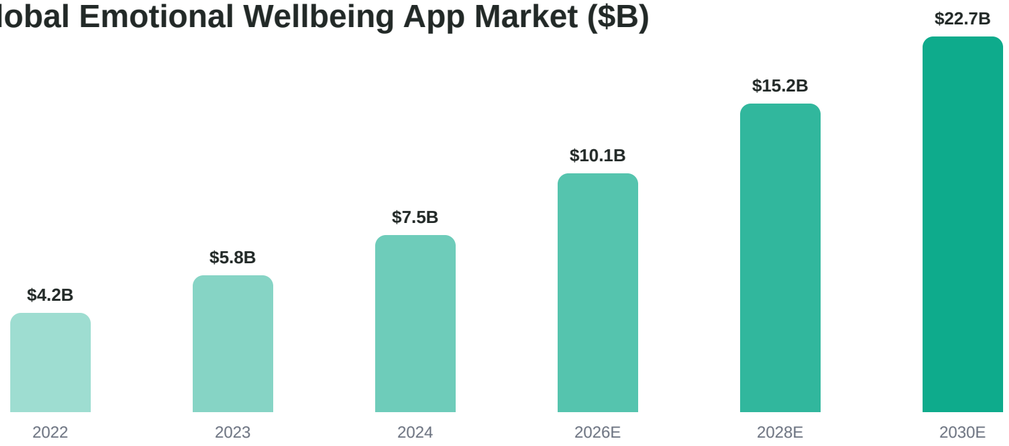
500K paid subscribers at ~$20/month avg. ARPU across Tier-1 markets

Sources: Mordor Intelligence 2025, Grand View Research 2025, MarketsandMarkets 2025

MARKET GROWTH

# Emotional Wellbeing Is The Fastest-Growing Wellness Category

## Global Emotional Wellbeing App Market ($B)



Source: MarketsandMarkets, Grand View Research 2025

## Key Growth Drivers

**AI-Powered Solutions** — **34% CAGR**

$1.8B (2025) → $7.8B (2030) *(Mordor Intelligence)*

**Digital Therapeutics** — **24% CAGR**

$7.7B (2024) → $82B (2035) *(Grand View Research)*

**Gen Z Wellness Spend** — **8.3% CAGR**

$30.7B (2024) → $49.7B (2030) *(Mordor Intelligence)*

**$2.7B invested in emotional wellbeing tech in 2024**

38% YoY increase. AI ventures received 48% of all funding. *(Galen Growth, 2025)*

TRACTION

# Real Users, Real Growth

Strong early traction driven by community engagement and targeted campaigns.

**9,200+**
Verified unique users

**30+**
Countries reached

**70%**
Rate the app 4-5 stars

**Low CAC**
Efficient acquisition via organic + targeted ads

## The Tier-1 Shift 🚀

For the first time in Jan-Feb 2026, the **United States overtook Pakistan** as the #1 source of new users (110 vs 96). This signals organic product-market resonance in the highest-value market.

**500-700**
Active Tier-1 users (USA, UK, Canada, MENA, EU)

**851**
Users opted in for ongoing communication

## Feature Engagement

| | |
|---|---|
| Mood Tracking (Anchor) | 33% |
| AI Chat Interest | 33% |
| Journaling | 22% |

*Engagement limited by early paywall — being resolved with value-first pivot (see Roadmap)

# Competitive Landscape: The Gap We Fill

| Feature | SimpliHuman | Calm | Headspace | Wysa | Daylio | BetterHelp |
|---|---|---|---|---|---|---|
| Youth-Focused (17-28) | ✓ | ✗ | ✗ | ✗ | ✗ | ✗ |
| AI Companion Chat | ✓ | ✗ | ✓ | ✓ | ✗ | ✗ |
| Mood Tracking | ✓ | ✗ | ✗ | ✓ | ✓ | ✗ |
| Anonymous Community | ✓ | ✗ | ✗ | ✗ | ✗ | ✗ |
| Cathartic Release | ✓ | ✗ | ✗ | ✗ | ✗ | ✗ |
| Journaling | ✓ | ✗ | ✓ | ✗ | ✓ | ✗ |
| Community-Led Development | ✓ | ✗ | ✗ | ✗ | ✗ | ✗ |
| Price Point | ~$10/mo | $70/yr | $70/yr | Varies | $36/yr | $300/mo |
| All-in-One Ecosystem | ✓ | ✗ | ✗ | ✗ | ✗ | ✗ |

## Calm & Headspace ($2-3B)

Proved massive demand for wellbeing apps — **Calm: $596M revenue, 180M+ downloads. Headspace: 80M+ downloads.** But they're meditation-first, adult-focused. They validated the market; we serve the underserved youth segment. *(Business of Apps, 2025)*

## Wysa & Spring Health

Wysa proved AI therapy works — **30% GAD-7 reduction**, NHS partnerships, 4.5M users. **Spring Health hit $3.3B valuation** ($100M Series E). But both are B2B/clinical focused — leaving the D2C youth consumer market open. *(Wysa; BHB 2024)*

## BetterHelp / Talkspace ($1B+ rev)

BetterHelp generated **$1.03B in revenue** (2024) proving willingness to pay for digital support. Talkspace achieved **5 consecutive profitable quarters**. But at $300+/mo, they're priced out for youth. *(Teladoc Earnings; Talkspace Filing)*

BUSINESS MODEL

# Value-First Monetization

## Freemium + Subscription

Free tier delivers immediate emotional value (mood tracking, basic journaling, limited AI). Premium unlocks the full ecosystem.

### Free Tier
Mood tracking, basic journal, limited AI, community Echo

**$0**

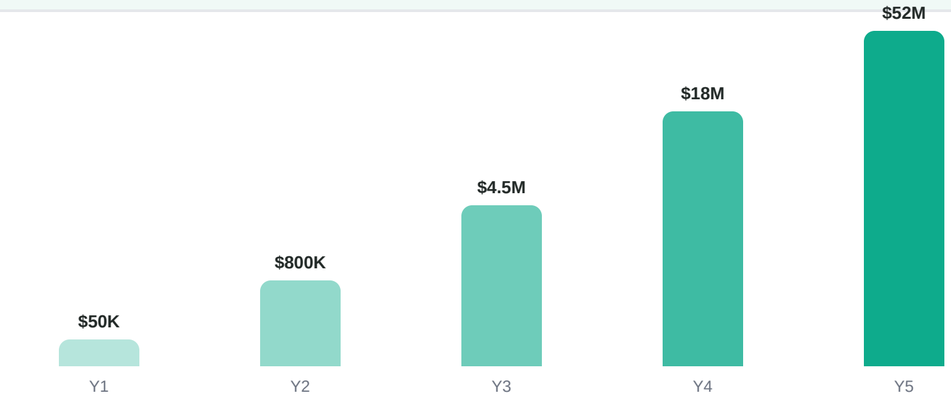
### Premium Monthly
Unlimited AI, advanced analytics, voice journals, exercises, data export

**~$10/mo**

### Premium Annual
All premium features + custom themes + premium analytics

**~$72/yr**

## Revenue Projections



Annual Recurring Revenue (ARR)

**60%**
Target Gross Margin

**18mo**
Target Payback Period

**Additional Revenue Streams**

OUR MOAT

# For The Youth, By The Youth

SimpliHuman isn't built in a boardroom. Every feature is co-created with our community — making our users co-founders, idea-shapers, and decision-makers.

### Community-Led R&D

Users vote on features, test prototypes, and shape the product roadmap. Every survey, every feedback loop feeds directly into development. This creates a product that evolves with its users — not ahead of them.

### Longitudinal Emotional Data

Each mood log, context tag, journal entry, and AI interaction builds a rich emotional profile. Over time, this creates a deeply personalized experience no competitor can replicate — switching costs increase with every interaction.

### Network Effects via Echo

Every user who shares on Echo adds value for every other user who reads and responds. This creates a compounding community effect — the more people use SimpliHuman, the more valuable it becomes for everyone.

## Defensibility Stack

**Layer 1**
**Community Trust**
Youth-authentic brand built by peers

**Layer 2**
**Data Network Effects**
Personalization deepens with each use

**Layer 3**
**Social Graph (Echo)**
Community value grows with each user

**Layer 4**
**AI Personalization**
4 AI personalities tuned to individual patterns

GO-TO-MARKET

# Growth Strategy: Organic-First, Then Amplify

### 1 Community Viral Loops

Echo shares, mood streaks, and journal milestones create organic shareable moments. Each anonymous Echo has the potential to resonate and draw new users into the community.

### 2 University & Campus Partnerships

Partner with university wellness centers to offer SimpliHuman as a supplementary emotional wellbeing tool. Proven channel for BetterHelp/Talkspace — but at a fraction of the cost.

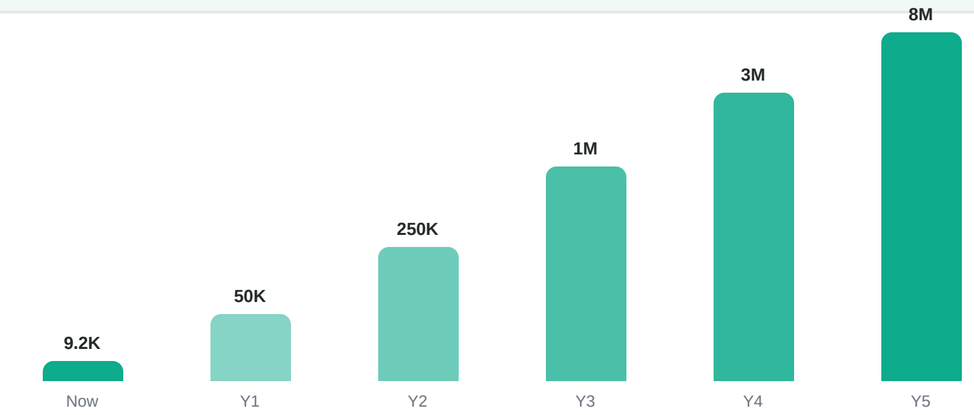
### 3 Creator & Influencer Network

Partner with Gen Z mental wellness creators on TikTok, Instagram, and YouTube. Authentic voices sharing their SimpliHuman journey — not ads, but genuine advocacy.

### 4 Targeted Paid Growth (Post-PMF)

Once product-market fit is validated (>40% PMF score), deploy targeted paid acquisition on platforms where our audience lives: TikTok, Instagram, Snapchat.

## User Growth Targets



Total registered users (free + paid)

### Key Insight

With **9,200+ users at $0 CAC**, we've proven organic demand exists. Funding will unlock growth channels to accelerate what's already working — not start from zero.

ROADMAP

# Product Roadmap

## Q1-Q2 2026

### Foundation Fix

- Single-step sign-in + guest mode
- Resolve analytics discrepancies
- Fix onboarding (target <20% drop)
- Move paywall behind value delivery
- Performance fixes (load times, AI latency)

In Progress

## Q3-Q4 2026

### Product-Market Fit

- Mood Tracker 2.0 (context tags + mini-journal)
- AI personality system launch
- Echo feature revamp for engagement
- Home screen simplification
- A/B testing paywall timing

Planned

## 2027 H1

### Scale & Monetize

- University partnership program
- Premium analytics & data export
- Voice journals & transcription
- Widget ecosystem (home screen)
- Paid growth activation (post-PMF)

Planned

## 2027 H2+

### Ecosystem Expansion

- B2B enterprise wellness offering
- Professional support marketplace
- Multi-language expansion
- Wearable integrations (Apple Watch)
- Research partnerships & clinical validation

Vision

## Key Milestones & KPIs We're Tracking

**Onboarding Drop**
~~70%~~ → <20%

**D7 Retention**
~2% → 5-6%

**First Mood Log Rate**
~30% → 50%+

**PMF Score**
25% → 40%+

**Active Paid Users**
~10 → 50+

THE TEAM

# Built By People Who Understand

A cross-disciplinary founding team combining deep consulting expertise, clinical psychology, technology leadership, and design thinking.

MJ

### Mohammad J Sear

**Co-Founder**

EY Partner | UK Gov

THE ASK

# Seed Round: Fuel the Movement

RAISING

**$850K**

Seed Round

## Use of Funds

| | |
|---|---|
| Product & Engineering | 45% |
| Growth & Marketing | 25% |
| AI & Data Infrastructure | 15% |
| Operations & Team | 10% |
| Reserve | 5% |

## What This Unlocks

### 1 Product-Market Fit Validation

Complete the value-first pivot, fix onboarding, achieve >40% PMF score with 50+ active paid subscribers in Tier-1 markets.

### 2 Scale to 50K Users

Activate organic growth channels, launch university partnerships, and begin targeted paid acquisition in proven channels.

### 3 AI Ecosystem Buildout

Deploy 4 AI personalities, context-aware recommendations, and the emotional intelligence engine that makes SimpliHuman irreplaceable.

### 4 18-Month Runway to Series A

Reach key metrics for Series A fundraise: 50K+ users, validated unit economics, and clear path to profitability.

# SimpliHuman

# The world doesn't need another meditation app.

It needs an emotional wellbeing ecosystem
**built by the generation that needs it most.**
